Accounts being a tough practical subject, students find it difficult to keep up with the theoretical concepts and practical problems at the same time. There remains a need for the book which helps students practice ample problems on every topic and be exam ready. Keeping this in mind, the authors present Problems and Solutions in Accounting to cater to the needs of CA Intermediate students appearing for Group-I, Paper 1: Accounting as per the new syllabus scheme of ICAI. The book has been neatly organised into Sections and Sub-sections each dedicated to fundamental topics of Accounting. For easy, navigation through a chapter, the number of problems dedicated to a topic and the type of problems covered have been listed in detail at the beginning. Salient Features: Content is strictly aligned to the topical flow as guided by the syllabus of ICAI. Coverage of Questions from RTPs and MTPs of ICAI examination. Thoroughly updated content includes latest changes in Accounting and the Companies Act, 2013. Questions from previous year ICAI examinations, Revisionary Test Papers (RTPs), Mock Test Papers (MTPs), and other professional bodies have been incorporated to provide enhanced understanding and extensive practice to the students. Each chapter is further subdivided in various sections to develop the concepts in a methodical manner.

Presented in a question-answer format, "Problems and Solutions in Advanced Accounting for CA Intermediate" is specially designed for the students who are preparing for Group-II, Paper 5: Advanced Accounting. The content has been carefully carved out to cover the problems that are most frequently asked in examinations and are aligned to the syllabus. Care has been taken to include problems of simple as well as complex nature and solutions to most of the problems have been provided in a step-by-step manner which makes it easier for the student to understand the concepts and fetch marks. Salient Features: Content is strictly aligned to the topical flow as guided by the syllabus of ICAI. Coverage of Questions from RTPs and MTPs of ICAI examination. Thoroughly updated content includes latest changes in Accounting and the Companies Act, 2013. Questions from previous year ICAI examinations, Revisionary Test Papers (RTPs), Mock Test Papers (MTPs), and other professional bodies have been incorporated to provide enhanced understanding and extensive practice to the students. Each chapter is further subdivided in various sections to develop the concepts in a methodical manner.

FIA - Foundations in Taxation FA2011 - FTX Study Text 2013

Our Study Text is the only P6 text reviewed by the examiner. It covers the entire syllabus at just the right level. There is a chapter towards the end of the text devoted to tax planning and ethics. This chapter helps you to bridge the gap between acquiring the knowledge that you must have at this level and starting to apply that knowledge to the type of questions that you will meet. The question and answer bank will also be vital in helping you develop your application skills. The questions are at a level designed to aid your transition towards the examination standard questions that you will find in BPP Learning Media's Practice and Revision kit.

A Core Study Text for the ATT Qualification

Tulsian's Quick Revision for Financial Accounting is a self-study handbook. Loaded with practical questions, this book is a perfect revision text - comprises structured questions based on pattern and scheme adopted in examinations.

An in-depth, enlightening look at the integrated reporting movement The Integrated Reporting Movement explores the meaning of the concept, explains the forces that provide momentum to the associated movement, and examines the motives of the actors involved. The book posits integrated reporting as a key mechanism by which companies can ensure their own long-term sustainability by contributing to a sustainable society. Although integrated reporting has seen substantial development due to the support of companies, investors, and the initiatives of a number of NGOs, widespread regulatory intervention has yet to materialize. Outside of South Africa, adoption remains voluntary, accomplished via social movement abetted, to varying degrees, by market forces. In considering integrated reporting 's current state of play, the authors provide guidance to ensure wider adoption of the practice and success of the movement, starting with how companies can improve their own reporting processes. But the support of investors, regulators, and NGOs is also important. All will benefit, as will society as a whole. Readers will learn how integrated reporting has evolved over the years, where frameworks and standards are today, and the practices that help ensure effective implementation—including, but not limited to an extensive discussion of information technology 's role in reporting and the importance of corporate reporting websites. The authors introduce the concepts of an annual board of directors ' " Statement of Significant Audiences and Materiality " and a " Sustainable Value Matrix " tool that translates the statement into management decisions. The book argues that the appropriate combination of market and regulatory forces to speed adoption will vary by country, concluding with four specific recommendations about what must be done to accelerate high quality adoption of integrated reporting around the world.

This book is one of the first of its kind to bring together a variety of perspectives on evaluation from a multidisciplinary international perspective. The book, with its content derived from leading experts in their chosen fields of practice, illustrates the potential of evaluation to demonstrate the impact and efficiency of social interventions. Examples are given of comparative effectiveness research, realist evaluation, and systematic reviews, as well as of holistic and authentic evaluation, the use of advisory groups, and qualitative needs assessment. The volume also presents some special evaluation tools used by national governments and which are used to influence a variety of professional practices. The key features of the book are: • An international panel of experts sharing the expertise in evaluation. • Multiple perspectives on evaluation theory, methodology and practices articulated through a range of interdisciplinary perspectives. • A primary focus on client-, patient-, and, more generally, human-centredness. • Practical examples of contrasting evaluation methods in use. • Helpful tips and advice offered throughout. The book is compiled from the work of the plenary speakers, plenary panel and selected workshop presentations at the 8th International Conference on Evaluation for Practice, Eval2012, held in Finland in 2012. The contributors come from Australia, Brazil, Finland, Ireland, Italy, Norway, the Republic of Korea, the UK, and the USA. In line with the traditions of the conference series, some contributions here are joint endeavours from academics and practitioners. Evaluation as a Tool for Research, Learning and Making Things Better is recommended for both academics and practitioners, and will be useful for individual researchers, researcher communities and students, who are interested in and conduct evaluation research in various contexts, including as part of service development programs, and for public and private organizations which pursue good service quality with an impact.

The examining team reviewed P6 Study Text covers all the relevant ACCA P6 syllabus topics. It explores tax planning and ethics to help you begin applying the knowledge that you have gained to the type of questions you will find in the exam. The question and answer bank will also help you develop your application skills. The included questions are aimed to prepare you for the examination standard questions you will find in BPP Learning Media's Practice & Revision Kit.

The most important and recent judgments of the CJEU Considering the ever increasing importance of indirect taxation as a source of revenue for governments, the intensifying complexity of the legal framework, and the proliferating number of countries adopting indirect taxation, it is essential to scrutinize how the law is actually applied in practice. The primary driving force in this area is, undoubtedly, the Court of Justice of the European Union. This book analyses selected topics (e.g. fundamental principles and VAT, administrative cooperation in VAT, taxable base and rates, exemptions, and deductions) by examining the most prominent and recent judgments of the Court of Justice of the European Union. Experts from all over the world, not just from academia but also government representatives and tax practitioners, have provided their input and helped us compile what is an informative and worthy read for anyone dealing with indirect taxation on a professional basis.
