Useful for the first three years of Secondary school, this is a three book series. It provides an introduction to the world of Science and is a helpful foundation for CXC separate sciences and CXC single award Integrated Science. Written in clear English, it is suitable for a range of abilities.

This is the first book to take a deep dive into the philosophical, social, moral, political, and religious issues tackled by Seth MacFarlane's marvelous space adventure, *The Orville*. These new essays explore what *The Orville* has to say on everything from climate change, artificial intelligence, and sexual assault, to gender, feminism, love, and care. Divided into six "acts" (just like every episode of *The Orville*), with the show as its backdrop, the book asks questions about the dangers of democracy and social media, the show's relationship to *Star Trek* and the puzzle of time travel.

Common Core Science 4 Today: Daily Skill Practice provides the perfect standards-based activities for each day of the week. Reinforce science topics and the math and language arts Common Core State Standards all year long in only 10 minutes a day! Weeks are separated by science topic so they may be completed in the order that best complements your science curriculum. Review essential skills during a four-day period and assess on the fifth day for easy progress monitoring. Common Core Science 4 Today series for kindergarten through fifth grade covers 40 weeks of science topics with engaging, cross-curricular activities. Common Core Science 4 Today includes a Common Core Standards Alignment

Matrix, and shows the standards covered on the assessment for the week for easy planning and documentation. Common Core Science 4 Today will make integrating science practice into daily classroom instruction a breeze!

Take students in grades 5-8 on a field trip without leaving the classroom using Exploring Asia! This 48-page book features reading selections and assessments that utilize a variety of questioning strategies, such as matching, true or false, critical thinking, and constructed response. Map projects and hands-on activities engage students in learning about the physical, political, and human geography of Asia. For struggling readers, the book includes a downloadable version of the reading selections at a fourth- to fifth-grade reading level. This book aligns with state, national, and Canadian provincial standards.
