Noir – as hinted at in the titles – can tell us a lot about a sense of entrapment (Caught, Cornered, No Way Out); the role of accident and chance in life (Detour, Suddenly); anxiety, fear and alienation (Nightmare Alley, I Wake Up Screaming, In a Lonely Place); and about how even a tender expression of affection can be fatal (Kiss Me Deadly).

Why film noir is perfect for lockdown | Barbican

In fact, there is a source for "barbican" much closer to home. In his Survey of London published in 1598, John Stow writes: "On the west side of the Red Cross is a street called the Barbican, because sometime there stood on the north side thereof a burgh-kenning, or watch tower of the City, called in some languages a barbican."

Problem gambling and suicide Recent research has shown a strong link between gambling problems and thoughts of suicide – more than double the amount of people affected by gambling problems say that they have considered taking their own life compared to those who are not affected by gambling.

A research-based guide to controlling the destructive urge to gamble From Howard Shaffer, PhD, a noted expert on gambling addiction, and Harvard Health Publications comes Change Your Gambling, Change your Life, a landmark new book which explains how gambling problems are related to other underlying issues: such as anxiety, mood fluctuation, difficulty with impulse control, and substance abuse problems. Dr. Shaffer offers a series of self-tests to help evaluate the degree of gambling problem and analyze the psychological and social context of the behavior, with specific strategies and approaches for ending the problems with simple tools that anyone can do. Explains why many people have a problem controlling their urge to gamble and how that can be corrected Includes a toolbox of resources for anyone who wants to stop the vicious cycle of gambling Offers advice for avoiding slips and preventing backslides and how to deal with the consequences With candor and expert advice, Change Your Gambling, Change Your Life provides proven techniques for controlling the urge to gamble.

Walking through the doors of a casino can feel like entering a portal into another dimension. A cacophony of electronic and human sounds assaults the ears as you watch people transacting large amounts of money. But this is no ordinary purchasing of goods or services where you quietly wave a card or hand out notes from a purse. Instead, money is swapped for colourful plastic chips that are placed, pushed, and thrown onto gaming tables with seemingly reckless abandon by a wide array of people, young, old, cultured, relaxed, happy, and grim. Phil Watts, as an experienced forensic psychologist, knew a lot about human nature before he walked into his first casino at 40 years of age. He had treated clients with a wide range of difficulties including gambling, yet was still struck by the casino environment — an exciting world with its own culture, pace, rules, social etiquette, and shared expectations. This other world intrigued and surprised him. So, he wrote a book about it. Casino Life will be of interest to those who seeking to know more about casinos and their psychological effects, those who seek to find out why others gamble, and those who do gamble — not as a treatment, but as a window to see what you are doing and how that has an impact upon you. Along the way you will read about why people gamble, why gambling can become addictive and the treatments used to help problem gamblers, as well as the beliefs around gambling and some of the elaborate theories people use to explain why they try to defy mathematical odds. You will also learn about the fascinating cultural and behavioural patterns of everyday casino life.

Is there really such a thing as a professional gambler? The answer is an unequivocal, "Yes!" This book's authors are but two examples. Many thousands of people around the country make a good living exclusively from gambling. It is not easy, but it can be done. The key is to understand which games are beatable and know how to beat them. David Sklansky and Mason Malmuth have spent many years writing about the finer points of poker, blackjack, and other beatable games. As you will see in the book, those other "games" are horses, sports, progressive slots and video poker, casino tournaments, and special promotions. They don't include craps, roulette, keno, or baccarat for reasons they'll explain. This book, was written for the not quite as experienced aspiring gambler. It shows you everything you need to learn and do if you want to gamble for a living from both the practical and the technical standpoints. The rest is up to you.

The only ethnography devoted to the practice of gambling as its core subject, Gambling Life considers the stakes of social action in one community on the island of Crete. Backgammon cafés, card clubs, and hidden gambling rooms in the city of Chania provide the context for Thomas M. Malaby to examine the ways in which people confront uncertainty in their lives. He shows how the dynamics of gambling -- risk, fate, uncertainty, and luck -- are reflected in other aspects of gamblers' lives from courtship and mortality to state bureaucracy and national identity. By moving beyond risk and fate as unexamined analytical categories, Malaby presents a new model for research concerning indeterminacy, seeing it as arising from stochastic, performative, and other sources. Gambling Life questions the longstanding valorization of order and pattern in the social sciences.

Up-to-date, guided support to help women with a gambling problem achieve the rewards of a hopeful life, free of addiction Up-to-date, guided support to help women with a gambling problem achieve the rewards of a hopeful life, free of addiction Today, more than five million women in the United States struggle with problem gambling, and this number continues to increase as casinos, online card rooms, and other venues continue to multiply.In this groundbreaking book, addiction expert Diane Rae Davis, Ph.D., offers women everywhere the support they need to face this debilitating problem and take the necessary steps to regain control of their lives. Offering information on preventing relapse, finding support groups, and healing relationships with loved ones, Davis uses the most up-to-date research and methods for treatment to help women gamblers:identify what makes them vulnerable to addictionrecognize the costs and consequences of gambling behaviorssee what it means to "hit bottom"determine how to begin and continue on the road to recovery using a virtual toolbox of techniquesEach section of this user-friendly guide highlights real success stories of women who have gone through the same issues and treatment strategies, and who have discovered the rewards of beating a gambling problem and reclaimed hope for their lives.Diane Rae Davis, Ph.D., is a professor in the School of Social Work and Human Services at Eastern Washington University. She has researched and written extensively on addiction and recovery, specifically with regard to women in recovery from compulsive gambling.

READ THIS BOOK AND BECOME A HAPPY NONGAMBLER FOR THE REST OF YOUR LIFE Allen Carr's Easyway is a global phenomenon. It has helped millions of smokers from all over the world, and has also been successfully applied to a wide range of other issues, including drinking, overeating, and overspending. Here the method addresses the fastest growing social problem of modern times: gambling. Allen Carr explains how gamblers fall into the trap and why they keep gambling despite knowing that it's ruining their lives. By explaining the nature of the trap, he removes the desire to gamble and the fears that keep you hooked. Most important of all, you will not feel that you've made a sacrifice, you will not miss gambling, and you will enjoy life to the full without feeling in any way deprived. What people say about Allen Carr's Easyway method: "The Allen Carr program was nothing short of a miracle." Anjelica Huston "It was such a revelation that instantly I was freed from my addiction." Sir Anthony Hopkins "His skill is in removing the psychological dependence." The Sunday Times
