Commemorative Coin and Some History  
How Buildings Learn by Stewart Brand 4 of 6 “ Unreal Estate ” How Buildings Learn  
How Buildings Learn is a hymn to entropy, a witty, heterodox book dedicated to kicking the stuffing out of the proposition that architecture is permanent and that buildings cannot adapt." —Stephen Bayley, The Times (London)

How Buildings Learn: What Happens After They're Built ...  
How Buildings Learn: What Happens After They ' re Built is an illustrated book on the evolution of buildings and how buildings adapt to changing requirements over long periods. It was written by Stewart Brand and published by Viking Press in 1994. In 1997 it was turned into a 6-part TV series on the BBC.

How Buildings Learn - Wikipedia  
Buildings have often been studied whole in space, but never before have they been studied whole in time. How Buildings Learn is a masterful new synthesis that proposes that buildings adapt best when constantly refined and reshaped by their occupants, and that architects can mature from being artists of space to becoming artists of time.

Behind their walls buildings have long supported an interplay of systems that belies their static presence. Now, the ability for buildings to learn and proactively impact operations expands the horizon of possibilities. December 18, 2017

How Buildings Learn, A Look At Machine Learning  
Through examination of office building adaptation in Melbourne and Amsterdam, it is possible to learn where similarities and differences exist and where new practices can be shared.

(PDF) How buildings learn - ResearchGate  
The British edition of my HOW BUILDINGS LEARN is much the best, because it is so well printed, and the 250 photographs read very well. Critical remarks about buildings by Richard Rogers, however, were censored out of this edition, thanks to legal threats by Mr. Rogers. They are intact in the American editions.

How Buildings Learn: What Happens After They're Built ...  
How Buildings Learn is a book about buildings, but it ' s also a book about time — and that ' s what drew me in. The question is: What happens to the objects we create over time? Buildings is the subject of the book and buildings inevitably change with time. What makes some buildings get better while others get worse?
