How To Build A Motorcycle Frame From Scratch

Before we get right into the heart of the matter, let ' s try and understand the difference between making your motorcycle faster and making your motorcycle accelerate faster. Let ' s say you ' re riding a 600cc super sport: no matter what you do, you ' re not going to drastically improve the factory claimed top speed without spending money on a built motor, it ' s simply not going to happen.

10 Tricks That Will Make Your Motorcycle Faster | Autowise

Run a strip of your duct tape lengthwise. Make it taut. Run a widthwise strip to trap your foam and strips in their proper places. Make this taut also. Don't use Gorilla Tape, use regular old duct tape. It has plenty of sticking power for this job. If you just tried to tape widthwise with Gorilla, you just learned why I say don't use it for this.
