What is Learning to BREATHE? | Learning to BREATHE

Since breathing is something we can control and regulate, it is a useful tool for achieving a relaxed and clear state of mind. I recommend three breathing exercises and techniques to help relax and reduce stress: The Stimulating Breath, The 4-7-8 Breathing Exercise (also called the Relaxing Breath), and Breath Counting. Try each of these breathing exercises and techniques and see how they ...

Calm is the #1 app for sleep and meditation. Join the millions experiencing better sleep, lower stress, and less anxiety.

Disruptive behavior in the classroom, poor academic performance, out-of-control emotions: if you work with adolescents, you are well-aware of the challenges this age group presents. What if there was a way to calm these students down and arm them with the mindfulness skills needed to really excel in school and life? Written by mindfulness expert and licensed clinical psychologist Patricia C. Broderick, Learning to Breathe is a secular program that tailors the teaching of mindfulness to the developmental needs of adolescents to help them understand their thoughts and feelings and manage distressing emotions. Students will be empowered by learning important mindfulness meditation skills that help them improve emotion regulation, reduce stress, improve overall performance, and, perhaps most importantly, develop their attention. The book also includes a website link with student handouts and homework assignments, making it an ideal classroom tool. The book integrates certain themes of mindfulness-based stress reduction (MBSR), developed by Jon Kabat-Zinn, into a program that is shorter, more accessible to students, and compatible with school curricula. Students will learn to pay attention in the moment, manage emotions as they are perceived, and gain greater control over their own feelings and actions. These mindfulness practices offer the opportunity to develop hardiness in the face of uncomfortable feelings that otherwise might provoke a response that could be harmful (e.g. acting out by taking drugs, displaying violent behavior or acting in by becoming more depressed). This easy-to-use manual is designed to be used by teachers, but can also be used by any mental health provider teaching adolescents emotion regulation, stress reduction and mindfulness skills. The author is a graduate of the MBSR advanced practicum at the Center for Mindfulness in Massachusetts, led by Jon Kabat-Zinn. She is also a clinical psychologist and a certified school psychologist and counselor for grades K-12. In the book, Broderick calls on her years of experience working with adolescents to outline the best strategies for dealing with disruption in the classroom and emotions that are out of hand. The book is structured around six themes built upon the acronym BREATHE, and each theme has a core message. The program allows for themes to be delivered in 6 longer or 18 shorter sessions, depending upon time and needs of students. The 6 core lessons are: Body, Reflection, Emotions, Attention, Tenderness, and Healthy Mind Habits. Learning to Breathe is the perfect tool for empowering students as they grapple with the psychological tasks of adolescence.

A fully revised and updated second edition, including new research and skills in the areas of trauma and compassion Disruptive behavior in the classroom, poor academic performance, and out-of-control emotions: if you work with adolescents, you are well-aware of the challenges this age group presents, as well as how much time can be lost on your lessons while dealing with this behavior. The breakthrough book Learning to Breathe presents a research-based curriculum for teachers and clinicians who are seeking ways to help improve behavior and bolster academic performance in adolescents. Drawing on a combination of mindfulness-based therapies, the brief interventions outlined in the book have a strong theoretical basis in both education and psychology, and are proven effective when it comes to dealing with adolescent students who act out in the classroom.

"A funny memoir of Faith Club coauthor's serious attempt to change her brain from panic to peace in a year-long spiritual quest"--

A spiritual account of the author's survival of a grueling accident and subsequent effort to climb Mount Kilimanjaro describes her suffering, her months of surgeries and physical therapy, and her ascent on her fortieth birthday.

In Teach, Breathe, Learn, Meena Srinivasan highlights how mindfulness can be an effective tool in the classroom. What makes this book truly unique is her perspective as a classroom teacher, wrestling daily with the conditions about which she writes. "Teach, Breathe, Learn provides accessible, practical application of mindfulness to overcome challenges faced during the school day." Testimonials from students and colleagues are woven throughout the book. Teach, Breathe, Learn is designed for educators at all levels, parents interested in sharing mindfulness with their children, and anyone curious about how to cultivate their own mindfulness practice and eventually teach mindfulness to others. Part 1 helps teachers develop compassion and shift from "reacting" to "responding" to demands. Part 2 offers techniques for cultivating loving-kindness, gratitude and seeing students, colleagues, and parents as oneself. The last section of the book introduces a curriculum teachers can use to incorporate mindfulness into their classroom, replete with lesson plans, handouts, and homework assignments.

I breathe slowly in, I breathe slowly out. My breath is a river of peace. I am here in the world. Each moment I can breathe and be. Hear thunder crash, feel your toes touch sand, and watch leaves drift softly away on a quiet stream. The simple poems in Breathe and Be help children learn mindfulness as they connect to the beauty of the natural world. Mindfulness teaches us how to stay calm, soothe our emotions, and appreciate the world around us. Whether we're watching tiny colored fish darting in the water or exploring the leaves, branches, and roots of a towering tree, the thoughtful words and the lovely art of Breathe and Be remind us how much joy we can find by simply living with awareness and inner peace. Ages 4-8

Meena Srinivasan began teaching in order to touch lives, but with the demands of covering her curriculum she all but forgot her aspiration. During a retreat with Thich Nhat Hanh, Meena learned for the first time about mindfulness. In Teach, Breathe, Learn, Srinivasan highlights how mindfulness can be an effective tool in the classroom. What makes this book truly unique is Srinivasan's perspective as a classroom teacher, wrestling

daily with the conditions about which she writes. Each chapter begins with a personal narrative concerning a challenge Srinivasan faced during the school day and how a specific mindfulness practice helped. Testimonials from students, colleagues, and parents appear in each chapter, along with a mindfulness practice. Part 1 helps teachers develop compassion and shift from “reacting” to “responding” to demands. Part 2 offers techniques for cultivating loving-kindness and seeing students, colleagues, and parents as oneself. The author shares what research says about the effects of mindfulness practice on academic, social, and emotional learning. The last section of the book introduces the complete curriculum teachers can use to incorporate mindfulness into their classroom, replete with lesson plans, PowerPoint diagrams, handouts, and homework assignments.

Learn the power of mindful breathing through the fun and interactive exercises in this book. With The Breathing Book, young readers discover the power of mindful awareness through a series of breathing practices and engaging activities designed to calm the mind and body, set positive intentions, and spark creativity and imagination. A book that’s much more than just a book, this interactive offering from Christopher Willard and Olivia Weisser invites readers to bring their full attention to the sights, sounds, and tactile sensations that arise as they explore the practices on each page with awareness. With simple instructions and delightful illustrations, you’ll use your breath to bring this book to life by turning the pages ... balancing the book on your head, hand, or belly ... tracing shapes and labyrinths ...“reframing” troubling thoughts and feelings ... sending kind wishes to people and our planet ... and many more activities that can be practiced again and again.
