This best-selling text emphasizes that social and cultural changes are the pervasive realities of our era. One of the main themes of Contemporary Society is that the transition from an industrial to a post-industrial order in the modern world is fraught with difficulties, as was the transition from an agricultural to an industrial order in an earlier era. Within this framework, we can observe the increasing fragmentation of the social order, which tends to lead people away from community and a common purpose and often invites conflict and disunity. At the same time, countervailing social forces are also at work, providing some stability, some shelter in the storm. Finally, societies are faced with the rapid and transformative power of information technology, a fact that propels separate groups of people into a global entity.

Bloom was abandoned by her mother at birth, but thanks to her dad she never once felt unloved. When he is killed in a car wreck, leaving her without any close family, she spends a year mourning him. She feels as if her heart has been cut out of her chest and nothing is left but an empty hole that she doesn't think will ever heal. Then one night after work she finds a wounded dog in the woods behind her house and takes him in, not realizing he's more than just some stray dog but a wolf shifter, who happens to be her mate. Pike is getting over the loss of his father by running full force away from his responsibilities. He's getting ready to go back to face his new position as the Alpha of his pack when he catches the scent that can only belong to his mate. When Bloom finds out she may not be the normal human she always thought herself to be, she's forced to search out the woman who abandoned her at birth. \*\*Warning This Book Contains Graphic Language\*\*
