Communication technology in the hospital is changing nursing practice. Electronic clinical observations have been rolled out on a massive scale in hospitals around the world. These can take the form of individual patient monitors, which record and store all data that was traditionally recorded on paper.

## How Technology is Changing Nursing Practice for the Better

For 2017, she discusses short-term trends, which include the shift to greater interest in understanding how the use of “ digital modes ” of teaching is impacting students (Adams Becker et al., 2017). A Wolters Kluwer/NLN infographic shows that 82.9 percent of nursing students report that the use of technology
