### Software Documentation template - Read the Docs

Software documentation is written text or illustration that accompanies computer software or is embedded in the source code. The documentation either explains how the software operates or how to use it, and may mean different things to people in different roles. Documentation is an important part of software engineering. Types of documentation include:

### Software documentation - Wikipedia

Most software engineers write the documentation for a project at the end of a sprint or they dedicate a separate sprint at the end of the development phase. At that point, they probably have already memorized most of the functions and writing software documentation can seem very cumbersome and useless.

### 15+ Software Documentation Tools That Will Save the Day ...
