## **Study Guide Answers: Blood and the Cardiovascular System**

# File Type PDF Study Guide For

The circulatory  
system – or  
cardiovascular  
system –

consists of the  
heart and the  
blood vessels.

The heart, the  
main organ of  
the circulatory  
system, causes  
blood to flow.

The heart's  
pumping action

# File Type PDF Study Guide For

The heart squeezes blood out of the heart, and the pressure it generates forces the blood through the blood vessels. Anatomically speaking, the heart is only about the size of your fist.
