The series Advances in Industrial Control aims to report and encourage technology transfer in control engineering. The rapid development of control technology impacts all areas of the control discipline. New theory, new controllers, actuators, sensors, new industrial processes, computer methods, new applications, new philosophies new challenges. Much of this development work resides in industrial reports, feasibility study papers and the reports of advanced collaborative projects. The series offers an opportunity for researchers to present an extended exposition of such new work in all aspects of industrial control for wider and rapid dissemination. The steel industry world-wide is highly competitive and there is significant research in progress to ensure competitive success prevails in the various companies. From an engineering viewpoint, this means the use of increasingly sophisticated techniques and state-of-the-art theory to optimise process throughput and deliver ever more exacting dimensional and material property specifications. Dr. Bjöm Sohlberg's monograph demonstrates this interplay between fundamental control engineering science and the demands of a particular applications project in the steel strip production business. It is an excellent piece of work which clearly shows how these industrial engineering challenges can be formulated and solved.

The mission of the International Journal of Educational Reform (IJER) is to keep readers up-to-date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities. As the only peer-reviewed scholarly publication that combines authors' voices without regard for the political affiliations perspectives, or research methodologies, IJER provides readers with a balanced view of all sides of the political and educational mainstream. To this end, IJER includes, but is not limited to, inquiry based and opinion pieces on developments in such areas as policy, administration, curriculum, instruction, law, and research. IJER should thus be of interest to professional educators with decision-making roles and policymakers at all levels turn since it provides a broad-based conversation between and among policymakers, practitioners, and academicians about reform goals, objectives, and methods for success throughout the world. Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked. IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes. Finally, it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U.S. and the world.

Containing information in a user-friendly format, this directory sets out to help the distance learner make an informed career choice, and look up the correct information on where and what to study.

Abstrakte Bankgarantien sind im internationalen Wirtschaftsverkehr ein unverzichtbares Zahlungssicherungsmittel für komplexe Bauvorhaben und andere Großprojekte. Sie versprechen im Bedarfsfall sofortige Liquidität und lassen sich auf erstes Anfordern abrufen, ohne dass Einwände aus dem Grund-, oder Deckungsgeschäft die Auszahlung verhindern können. Diese unmittelbare Verwertungsmöglichkeit birgt jedoch zwangsweise ein erhöhtes Risiko einer ungerechtfertigten oder missbräuchlichen Abrufung. Das vorliegende Werk untersucht rechtsvergleichend den Missbrauch von Bankgarantien (sog. demand guarantee/independent guarantee/standby letter of credit) im südafrikanischen, englischen sowie deutschen Recht. Unter Auswertung aktueller Gerichtsentscheidungen sowie des Schrifttums werden die praxisrelevanten Missbrauchsfallgruppen analysiert und Wege zur Risikominimierung bzw. -vermeidung aufgezeigt. Das Werk ist gleichermaßen für die Praxis und Wissenschaft geeignet und leistet einen wichtigen Beitrag zur Auflösung des Spannungsfeldes von Rechtssicherheit und materieller Gerechtigkeit im internationalen Wirtschaftsverkehr.
